Old Business

Chairman Zupanic – For those who were here last month, we had an agenda tonight to go over Signage to discuss any type of permanent, temporary or signage in general but we seem to have a change in plans. We have two organizations here to speak regarding various interests in farming. What we were planning on doing tonight – Signage – will be postponed until next month and any type of other zoning issues will be postponed to a month later. In order to listen to the presentations, I will see if there is a motion to end this meeting.

Adjournment

Upon motion by Jill Kemp, duly seconded by Ron Oiler, and hearing only yes votes, the chair adjourned the meeting at 7:50 p.m. The meeting was turned over to the speakers for their presentations.
